**Two toast or not two toast...** We know we serve bigger than average breakfasts, and we don't like waste any more than you do, so we're cutting back on the food that matters least to our customers, the toast. Magill's is now serving only one piece of toast with our breakfasts that are traditionally served with toast and we've cut the toast completely from breakfasts where the toast is just overkill on an already humongous breakfast. However, if you can't live without your two pieces of toast, just let your server know and we'll be happy to serve them to you at no extra charge.
